SUMMARY

Mobile engineer with 9+ years of experience, including 5 years in React Native and Expo and a strong native iOS background (Swift, SwiftUI, UIKit). Built the Spotlight Android app from scratch, migrated a native iOS app to React Native, and own release engineering end to end (EAS, GitHub Actions, Fastlane, Maestro). Delivered StoreKit 2 subscriptions that contributed to a 20% revenue increase for a platform with 1.3M+ registered performers.

TECHNICAL SKILLS

Cross-platform	React Native, Expo (EAS Build), TypeScript
iOS	Swift, SwiftUI, UIKit, Objective-C, Combine, RxSwift, Core Data, Core Location, AVFoundation, StoreKit 2, MapKit
Architecture	MVVM, MVC, VIPER, SOLID, design patterns, memory management and ARC
Testing	XCTest, XCUITest, Maestro
CI/CD & Release	GitHub Actions, Fastlane, EAS Build, Firebase App Distribution, Bitrise, App Store and Play Store delivery
Backend & Services	REST, GraphQL, JSON, Firebase, APNs, FCM, AWS SNS, Stripe, Apple Pay, Datadog
Tools	Xcode, Git, Swift Package Manager, CocoaPods, Jira, Agile/Scrum

WORK EXPERIENCE

Lead Mobile Engineer | Talent Systems, Ahmedabad, India **08/2024 - Present**

Spotlight - *UK casting platform for performers and casting professionals, 50K+ users*

- Proposed and built the Spotlight Android app from scratch with React Native, Expo and TypeScript, after identifying the opportunity through user analytics.
- Own release engineering end to end: CI/CD with EAS Build, GitHub Actions and Fastlane, staging and production configurations, Firebase App Distribution, and App Store and Play Store delivery.
- Introduced Maestro for end-to-end test automation.
- Migrated the native iOS app (Swift/UIKit) to a cross-platform React Native codebase.
- Raised unit and UI test coverage on the native iOS app to 80%.
- Own push notification integration end to end with the backend (APNs, FCM, AWS SNS).

  Tech: React Native, Expo, TypeScript, Firebase, REST, Fastlane, GitHub Actions, APNs, FCM, SNS, Maestro, Git

Casting Networks - *US casting and performer platform, 1.3M+ registered performers*

- Implemented StoreKit 2 auto-renewable subscriptions, free-trial and paywall flows, integrated with backend subscription lifecycle events, contributing to a 20% revenue increase.
- Delivered onboarding, registration and performer journeys; supported notifications, release pipelines and app quality.

  Tech: Swift, StoreKit 2, GraphQL, Fastlane, APNs, FCM, XCUITest, Git

Fast Cast, Talent Discovery - *India casting and performer platform, 5K+ registered performers*

- Building mobile payment integration and purchase flows in React Native, working with backend services for reliable transaction handling.
- Contribute to iOS and Android release engineering, build configuration, quality checks and CI/CD.

  Tech: React Native, Expo, TypeScript, Firebase, REST, Fastlane, APNs, FCM, SNS, Maestro, Git

Senior iOS Developer | All State Solutions, Pune, India **08/2021 - 08/2024**

Good Hands Rescue Network - *US roadside-assistance platform for contractors, 10K+ users*

- Migrated the app from UIKit to SwiftUI in a Scrum team of 14.
- Took over development from an outsourced vendor, saving about $200K+ per year.
- Reached 85% unit test coverage with XCTest.
- Implemented location-based job-status reminder notifications, improving user experience by 60%.
- Integrated Datadog monitoring and used its data to improve app performance by 40%.

  Tech: Swift, SwiftUI, RxSwift, Firebase, REST, Core Data, Datadog, Git

Senior iOS Developer | Tatvasoft, Ahmedabad, India **11/2019 - 08/2021**

TMRO - *US platform connecting music industry professionals, 20K+ users*

- Built the app from scratch in a team of 4 using Swift and MVVM.
- Developed location services, API integrations, Instagram integration and Stripe payments.

  Tech: Swift, UIKit, Firebase, Sendbird, Core Location, AVFoundation, Core Data, Imgix, Stripe, Bitrise

Other Levels - *Australian CRM mobile-messaging provider, 130+ clients including Betfred*

- Built an iOS framework that adds a mailbox feature to Flutter apps.
- Resolved urgent iOS 14 issues in Objective-C.

  Tech: Objective-C, Flutter, XCTest, APNs, AWS, Core Data, Fastlane, Git

Jahan Money - *UK money-transfer app supporting 130+ countries*

- Integrated the money-transfer module in an agile team of 7.
- Optimised the mobile top-up module, improving app performance by 45% and earning a 4.5 customer rating.

  Tech: Swift, Firebase, Apple Pay, REST, Git

iOS Developer | Innopad Solution, Ahmedabad, India **09/2016 - 10/2019**

Pelipost, Photos to Prison - *US app for sending photos and letters to inmates, 500K+ users*

- Built the app from scratch in a team of 5 using Swift and MVVM: photo upload, loyalty points, order history and Stripe payments.
- Merged a multi-page flow into a single-page experience, improving customer engagement by 8%.
- Worked on React Native alongside native iOS development, switching between projects in parallel.

  Tech: Swift, Objective-C, React Native, Stripe, Sign in with Apple

Family Trail - *US family travel-tracking app, 5K+ users*

- Built the app from scratch in a team of 2, with location-based alerts and geofencing.

  Tech: Swift, MVVM, Core Location, Geofencing

On Site Location - *Stanford University enterprise app*

- Developed the app from scratch in an agile team of 4.

  Tech: Swift, Core Location, Geofencing

EDUCATION

Diploma in Computer Engineering | Gujarat Technological University, Gandhidham, India **04/2013 - 06/2016**
